SUMMARY

Experienced Full Stack Developer with strong expertise in both frontend and backend development. Skilled in designing, developing, and deploying scalable web applications using modern technologies. Proficient in building responsive user interfaces, RESTful APIs, and database management. Passionate about writing clean, efficient code and delivering high-quality digital solutions that solve real-world business problems.

SKILLS

- Proficient in Full Stack Development using HTML5, CSS3, JavaScript, React.js, Node.js, and Express.js to build scalable web applications.
- Experienced in developing responsive Single Page Applications (SPA) with API integration and dynamic user interfaces. Skilled in designing and managing RESTful APIs and working with MongoDB for efficient database operations.
- Hands-on experience with Git & GitHub, VS Code, Chrome DevTools, and implementing clean, maintainable code across frontend and backend systems.

PROFESSIONAL EXPERIENCE

CREATIVE INSIGHT IT ACADEMY

2026 - NOW

- Developed scalable React.js applications with focus on performance and responsiveness.
- Integrated and optimized RESTful APIs with efficient state management using Context API. Designed responsive websites using HTML5, CSS3, JavaScript, Bootstrap, and Tailwind CSS. Built backend services using Node.js, Express.js, and managed databases with MongoDB.

EDUCATION

- Saurashtra University / bachelor of computer science

April - 2025

PROJECTS

- Developed a modern fashion e-commerce website UI named Rivo using HTML and CSS, designed to replicate a professional online clothing store. The project features a structured navigation bar, hero section, best-selling products showcase, product grid layout, exclusive offer section, designer collection display, customer feedback area, and a fully functional footer with social media links and subscription form. The website demonstrates clean design, responsive layout principles, and strong frontend development skills, making it a portfolio-ready project.

Netflix Clone Website

- Developed a Netflix-inspired web application using HTML, CSS, and JavaScript
- Designed a responsive UI replicating the layout and user experience of Netflix
- Displayed movies and shows dynamically using API integration (e.g., TMDb)
- Implemented interactive features such as hover effects, banners, and scrolling rows
- Ensured mobile-friendly design and cross-browser compatibility

CERTIFICATE

- Completed Full Stack Development Course at Creative Insight IT Academy
